Father and Son Banquet In Gordon Memorial

Trail Rangers and Explorers Entertain Their Deeds to Supper

The annual Father and Son banquet was held in Gordon Memorial church last Friday evening. The members of the Trail Rangers and Explorers invited their dads for the evening.

A fine justice had been done to the banquet, provided by a committee of ladies headed by Mrs. J. Kitchen, the program of speeches was run through by W. B. Smith, who acted as chairman, and the role of the C. S. E. T. and made a strong appeal for co-operation from the men of the town. John Dutka, member of parliament, then reported for the Boys' Parliament. He gave a description of the work done and the laws enacted at the last session.

"What a Boy Expect of Home," was handled by Bob Stratton in a masterly manner and J. M. Stratton in his reply, while admitting that it had been a great deal, the counter account was about balance it.

Mayor Wicks, a fine speech, showed what the community expected of a boy, and he missed the report of the town in closing his character.

The youthful George Kitchin told what the average boy expects of his dad and in his reply E. Lavelle gave a shunmy talk out of his own experience as a boy in the days beyond recall. Billy Palmer outlined what a boy expects of the church and was followed by Mr. Henderson who, out of the fulness of the experience of years, impressively counselled the boys to follow the best and to climb the highway of persistent endeavor.

Kathie Ellis tendered the thanks of the meeting to the Ma's who provided the good eats.

Appropriate songs were interspersed among the speeches. For the benefit of the dads the initiation ceremony was put on, and after that challenge games were enjoyed until the hour for adjournment.

Alberta Resources Before Federal House

It Appears as Though The Final Offer Has Been Made

Documents in connection with the transfer of the natural resources to Alberta were presented in the federal house last Monday. The offer of the Federal Government to the Province of Alberta, which was made in December last year, following a conference with Premier Brownlee in Ottawa, was set forth at length, and is declared by the Prime Minister to be not subject to further modification by correspondence.

It is proposed to transfer to Alberta the natural resources in their entirety with the exception of those areas now set apart for park purposes. With regard to mineral rights in national parks within the province, it is proposed to leave Alberta on the same footing as the other provinces of the Dominion. With respect to school lands, trust funds and the school lands, it is proposed that these shall pass to the administration of the province but shall be set aside and continued to be administered by the province for the support of schools organized and carried on there in accordance with the laws of the province, but in compliance with the letter and spirit of the constitution.

Two Good Shows Coming to Cameo

Will Be Held on Monday and Thursday Next Week

Thanks to British interference, the abominable practice of Arab trailing their women folk for horses and camels has almost been abolished in the near east. Only rare cases have been heard of lately, where these desert sheikhs traded their female offerings for horses. The director of the film "Pleasure," spent many years in Mesopotamia during the world war and had a number of opportunities of studying the habits of these savage wanderers of the desert. These will be shown in this picture next Monday.

Imagine indeed pretty chorus girls each an individual type, taking active part in an important scene in a western picture. Believe it or not but that's what actually will be seen when "Dancing Post," starring Tom Mix, will be shown at this place next Thursday.

ALTAR SOCIETY HAD A SUCCESSFUL SOCIAL

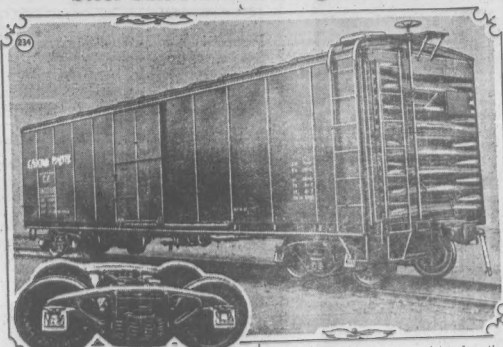

St. Mary's Altar Society put on a most successful evening in Cliff Hall last Friday evening. There was a good crowd in attendance and great interest was taken in every item on the program. Five hundred and what were played first after which there were dancing and refreshments.

In the whist drive Mrs. E. Sowerby won the ladies' prize and Miss Campbell the gent's. Congratulations went to Mrs. F. Jones and E. Sowerby. In five hundred Mrs. Wheeler and E. Sowerby were tied for first place. In the end of the cards Fry won out. W. Champ won the gent's prize. Congratulations went to Mrs. Geo. McKay and Adam Dubeau.

CO-OPERATIVE EXPERT TO HOLD ALBERTA MEETINGS

Dr. Jas. P. Warhouse, president of the Co-operative League of the United States, will address a series of meetings in Alberta this month, according to present arrangements. Dr. Warhouse will speak at the University of Alberta on Thursday, Feb. 14th. It is expected that this speech will be broadcast from station C. K. U. A.

Steel Cars Now for Freight Service

Steel is replacing wood in freight service and seventy-five hundred of the new freight cars now on order for the Canadian Pacific will set a new standard in grain and general freight service. These cars are not in replacement but in addition to the wood cars already in use, and will furnish a greater margin of safety, more speed and longer service while eliminating leakage.

They will have a capacity of 2,500 bushels of wheat and will considerably speed up the movement of grain. Riveting of all joints and connections will reduce to a minimum the loss of grain through leakage and the car itself will be more solid and will possess greater rigidity. The roof of the car will be made of wood lined inside.

Additional safety will be provided by a new type of truck having a cast steel frame. These truck side frames which represent a new standard of Canadian Pacific equipment, are one integral casting. Elimination of parts in the car proper is another noteworthy feature.

Dimensions of the car are 40 feet 9 inches in length, 8 feet 7 inches wide and 8 feet, 7 1/2 inches high. They will have 8 foot side doors and a capacity of 120,000 pounds.

The new cars represent an important advance in railway freight transportation on the continent and they have been developed more directly to keep pace with the development of the west. In recent years crop acreage has increased. Crop loadings have increased and improved harvesting machinery has speeded up delivery of the grain and necessitated still more efficient handling on the part of the railway companies.

Delivery of the new cars will be made in ample time for the harvest of 1929 and the Canadian Pacific may be expected to again break the record of crop handling.

HEALTHY SIGNS

In the legislature and in parliament both of which are now in session, things are happening which give promise for a much more healthy atmosphere in the "seats of the mighty" and give cause for the belief that politics are being lifted to a higher plane. And, strange as it may appear, these encouraging signs come from leaders in opposition.

In the legislature the other day Mr. A. A. McGillivray, in endorsing the sale of the province's northern railroads, said: "I desire to give my whole-hearted endorsement to the sale of these roads. I have not hesitated to adversely criticize this government on many occasions; I hope that I can be equally unflinching in my comments when in my judgment the government has acted wisely and well."

On the same day Mr. McGillivray made a strong plea for the abolition of the debate on the address in reply to the Speech from the Throne, which he described as an absolute waste of the time of the members of the assembly and of the money of the people in buying the assembly functioning for a longer period.

About the same time that Mr. McGillivray was making this speech in Edmonton, Hon. Mr. Bennett was telling the Federal Parliament at Ottawa that there would be no amendment from the official opposition, to the motion for an address in reply to the Speech from the Throne, which speech Mr. Bennett described as consisting of glittering generalities.

Although the same could be said of most Speeches from the Throne, it has been the custom for generations past to take from three to five weeks to dispose of this the first item on the parliamentary program. This was because of Mr. Bennett's attitude, it was disposed of in five hours.

These are healthy signs. They show that both sides to whom reference has been made are sincere in their desire to do away with petty formalism and get down to the real business of running the country. Such actions on the part of these men will go a long way towards convincing the public that no mistake was made in the selection of these two men as leaders of a great

political party. It will show also that in sacrificing their own personal comfort and financial opportunities these men are performing a great service to their country.

FOOD FOR THOUGHT

The findings of the commission appointed to investigate conditions at the Ponoka Institute, have been presented to the legislature. The commission has many faults to find with the manner in which the institution has been run and has made many suggestions for improvement.

Naturally the government is being severely criticized for allowing such conditions to exist; conditions which probably never have been known by the public if it had not been for the unfortunate incident which occurred in that institution a few months ago. How often this is the case. After every event catastrophe investigation takes place only to show that the catastrophe might have been averted if proper precautions had been taken long ago, and if the laws and regulations governing the places in which they occurred had been observed. And we have an army of inspectors whose duty it is to see that all these things "are" observed.

The outcome of the investigation of the Ponoka Institute furnishes food for thought for all governing bodies for the country school board to the federal parliament. How often we read of loss of life in schools, churches, public buildings, factories, mines, and even stores and offices, which by the investigation "after" the calamity, are shown to have been the result of faulty—or no—fire escapes and exits or for some other reason that could have been avoided.

Will not attempting in the least to shield the government at Edmonton, it might be pointed out that many other bodies, corporations and individuals have done and are doing the very same thing—buying a look for stable after the horse is stolen.

AT LEAST A FOUNDATION

When any changes in any laws, customs or acts of long standing are proposed, it is only natural to expect that they will meet with a certain

George Moses Died In Hospital Thursday

Suffering from Double Pneumonia After Accident at Brooks

It was a great shock to the people when they learned Thursday morning that George Moses had passed away at the Medicine Hat hospital at an early hour that morning.

About a week ago deceased met with an accident while at his work in a Brooks garage, as a result of which he had four ribs broken. He was taken to the Medicine Hat hospital where it was found that one of the broken ribs had pierced his lung. Double pneumonia developed and he sank rapidly.

George Moses was probably one of the best known young men in Redcliff where he lived for a number of years, in the early days he was a leading figure in a young men's club organized and carried on successfully at that time. For a number of years he was in charge of the town's pump station and later conducted a garage. Only a few months ago he moved to Brooks to reside.

Deceased was born in Scotland 41 years ago. When only a lad he came to Canada and lived with friends in Ontario for a short time before coming west. The late Mr. Moses leaves three sons: William, Eddie and Lloyd, aged 14, 12 and 10 respectively. In view of the sympathy of the entire community goes out to their sad bereavement. He also leaves three sisters in this country. They are Mrs. Cathart, of Redcliff; Mrs. McCaffrey, of Medicine Hat and Mrs. McNell, of Fessenden.

The funeral will take place from Mr. Noll's undertaking parlors on Saturday morning at ten o'clock. The remains will be interred in Medicine Hat cemetery.

amount of opposition that there will be anyone who will look at them from one angle and other angles who will look at them from another angle, that they will have their backers and their critics, their champions and their opponents. It is not surprising, therefore, if Hon. Vernon Baker, Minister of Education, is meeting with considerable opposition in connection with his proposed changes to the Rural School Act, despite the fact that for years past, criticism of the present system has come from all quarters.

There is probably no government department which has come in for more criticism lately than the educational department. Not because of shortcomings of the present minister or the present government—because that department is run as well now as it ever was—but largely because of the system. The general opinion appears to be that the present system is not conducive to the best results. People are saying it's out of date; we want a change; something in keeping with changing conditions and surroundings; something that will assure every child in Alberta, at least a common school education as reasonable as can be possible.

There is no doubt that the Hon. Mr. Baker's proposed plans were drawn up with the intention of at least attempting to do these very things. Of course it is only natural that they will not please everybody in every "detail," but the trouble with this age is that it "will not be still. It is the spirit of the hour which brings God's presence near and makes it real. Jesus taught the privilege of rest as well as the duty of activity, and He preached it. How often He withdrew from the throng to be alone. So claim the privilege of rest, the hour of solitude and quiet with God.

At least they furnish a foundation which, if approved by all concerned with a provincial wide vision instead of mere partial selfishness, may eventually lead to a greatly improved system.

Provincial Budget Shows Good Surplus

Expenditures on Essential Public Services Greater Than Year

Indicating the satisfactory financial position of the province, an estimated surplus of \$45,176 for the fiscal year 1929-30 was announced last Friday by Hon. R. G. Reid, Provincial Treasurer, in presenting the budget to the Legislature. Expenditures for the period are estimated at \$15,045,907 and revenues from all sources is placed at \$15,111,083. The net bonded debt of the province is now \$87,741,931. Only one increase in taxation is proposed or the coming year, a sliding on the tax on gasoline from 37.5 cents per gallon, and of this a rebate of 4 cents a gallon will be made in gasoline used for industrial or agricultural or agricultural purposes. It is announced that greater expenditures will be made in a number of the essential public services of the government this year than at any time in the past.

U. F. A. TO COLLECT FROM POOL MEMBERS

Energetic steps are under way by the U. F. A. to greatly increase its membership, according to a statement made on Monday by E. G. F. Schoenfeld, the vice-president.

Mr. Schoenfeld said that following the instructions given at their recent annual convention, they were heading for every local secretary and the provincial and federal constituency associations, books of authorization forms for the organization's membership fees to be deducted from the returns of pool members.

Canadians Are Meat Eaters

For Cattle Consumption Exceeded By Only Three Other Countries

In cattle holdings Canada ranks twelfth among the countries of the world. There are eight countries with more swine than Canada and apparently twenty with more sheep and lambs. The Dominion is one of the most consumptive of meat in the world. In 1926, Canada's per capita consumption of meat was 136.5 lbs. To Check Flu-Grip

Fight the Germs with Vapers, Before They Can Get Start

Treat All Colds Promptly But Be Careful Not To Disturb the Digestion With Too Much Dosing

While Flu is so prevalent everyone should take precautions to prevent its further spread. Flu is generally accompanied by a headache, burning eyeballs, and aching joints. But it begins so many times with just an ordinary cold.

Too often, the colds are neglected until they have lowered the vitality and permitted the lurking germs of influenza, or pneumonia to "get a foothold."

The only safe plan is to attack a cold at the very start, with hot bath, a laxative, and a vigorous application of Vicks VapoRub on the throat and chest at bedtime, will usually break up a cold overnight.

External Treatment Best

For hours after Vicks is applied, its ingredients, time-tested remedies, such as camphor, menthol, eucalyptus, thyme and turpentine, are vaporized by the warmth of the body and inhaled right to the inflamed air passages. At the same time, the ointment acts

through the skin like an old-fashioned liniment, "drawing out" tightness and pain, and helping the vapors to break up congestion.

Avoid Using Stomach
This simple external treatment cannot disturb your digestion as too much "dosing" is so apt to do. This is doubly important when "flu" is around, for your stomach, as well as your respiratory organs, must be kept in good condition in order to keep your body resistance at its highest level.

For this reason, too, mothers prefer Vicks for children. It can be used freely and often, even on the youngest child, with no fear of upsetting a delicate stomach.

To Help Ward Off the Flu
When influenza colds are prevalent, you can often prevent infection by applying a little Vicks vapor to the nostrils every night before going to bed, or before exposure to crowds.

Supporting New Calendar

League of Nations Society in Canada Takes Steps Toward Adoption

An initial step towards urging action on the part of the Dominion government in the matter of calendar reform and the adoption of the new have come suggestions for their correction. The various number of weeks in the months, the varying length of the months themselves and the standard periods of the year, the lack of fixity of the calendar, and the lack of fixity of religious and national holidays—particularly Easter—have combined to make the present system unsatisfactory and inefficient. It is claimed.

The movement for calendar simplification has been on foot for many years, but it was not until the new International Fixed Calendar was devised by Moses H. Cotsworth, an English statistician, that a worthwhile alternative was available. This calendar is composed of thirteen months, the extra month being added, being inserted between June and July, with each month numbering 28 days. Each monthly date is taken from the International Fixed Calendar has been taken by the League of Nations Society in Canada, which has its headquarters at the capital. The Ottawa branch of the society recently passed a resolution recommending the subject to the attention of the capital, and it appears likely that this body, which includes Sir George E. Foster, Sir Robert L. Borden, Sir George Mackenzie, M.P., Hon. J. M. T. G. C. Coe, Mrs. J. A. Wilson, President M.W.C., Colonel O. M. Duggan, K.C., Tom Miller, Graham Sperry, and Mrs. A. J. Freeman, will find its support to the movement.

The irregularities of the present calendar have been a source of trouble and expense to almost every form of activity. It was stated, not many months ago, that the world would fall upon the same date and vice versa, the month always starting on a Sunday and ending on a Saturday. National and religious holidays would be fixed where possible, to occur on Mondays, giving a long week-end, leaving little for industry and the working man.

Not only would this new fixed

calendar benefit industry, business, education, and labor, but it would also be a boon to agriculture, it is claimed. Its regularity and the absolute equality of the months, and various standard periods of the year would make comparison of crop statistics more accurate and would help the farmer in making plans from year to year.

The Assembly of the League of Nations, at Geneva, instructed a committee to look into the question of calendar reform some years ago and approving of its report requested the various nations of the world to confer on the subject. A Canadian committee has not yet been formed, and as a result of the interest being taken by the League of Nations in Canada, this may be brought about.

Modern Adventure

Wireless Keeps Women in Touch With Modern Times

Nothing could better illustrate the marvels of scientific achievement than the fact that Commander Byrd, after his return from the last of his expeditions, is able to give us detailed stories of the great adventure on day to day. The present generation can recall that other explorers of our time have disappeared from view on similar adventures for days and weeks, but only to reappear with the outside world, Admiral Peary was no exception in the history of the North.

"We have reached the great, mysterious ice barrier," Commander Byrd reports, a barrier bounding ninety feet in height. There ought to be a thrill for the imaginative in that simple sentence. And we are able almost immediately to visualize his scene and those "joyful and momentous" moments of the Commander. If the thrill does not come it is because we have become callous to marvels in this amazing era.

When the great discoveries of the explorer, their contemporaries set back for an interminable wait for news. Weeks—months—years—and at length the excitement was turned with their fascinating stories. Today we literally go along.

Flame, Popular With Women
Of those who fly in the great passenger airplanes that link up the world, the most popular are women. Figures published show that, in the United States, only one woman in a hundred is a passenger, taking many to Paris for shopping tours. Flashes are especially popular with honeymoon couples.

Farmers' Huge Business

Canadian Wheat Pool Transacts Largest Business in Canada Next to Empire Government

Next to the Canadian Federal Government, the largest business in Canada is transacted by the Canadian Wheat Pool. The business of the pool is to buy and sell wheat for the farmers of Western Canada who are members of the Canadian Wheat Pool.

In the crop year 1927-28 this farmers' co-operative marketing organization, the business of the pool was being the largest of its kind in the world; reports gross proceeds of \$23,547,282.41—an amount greater by several millions of dollars than the gross revenue of any other enterprise in the Dominion, the two great trans-continental railways included.

The Wheat Pool had its beginning in 1923 in Alberta. The following year the other two prairie provinces, Saskatchewan and Manitoba, joined in and the Canadian Wheat Pool was created. From a modest start the Wheat Pool has become one of Canada's largest business enterprises.

In the first crop year the Pool handled 200,871,830 bushels of the 44,000,000 bushels of wheat grown in Canada, and shipped 12,000,000 bushels to 25 countries.

Of the 1927-28 crop, the amount of the Pool's business was \$22,584,478.85, representing proceeds from wheat, 19,275,775.10; barley, 1,169,992.12; oats, 1,147,818.83; and receipts from the Ontario Grain Pool, \$2,155,892.83.

The Pool's business for 1927-28, compared with the preceding year, was \$2,510,110.11. The President of the Canadian Wheat Pool, who handles about 12,000,000 bushels of wheat for the Pool, is Mr. J. H. Macdonald.

Tribute From Marital Echo
The Toronto Star recently published the following from a special correspondent in Paris:

"In a New York message to the people of Canada given in a special interview, Marital Echo, generalissimo of the allied armies during the closing days of the war, paid tribute to the Canadian forces and the part they played in the final triumph of the allied cause."

"Oh, cannot," he said to me, "speak too highly of the magnificent valor of the Canadian contingents at various phases of the struggle against the enemy hordes, equipped with all the machinery that methods of barbarism could devise."

"Paraphrasing a line of sacred memory and there are other spots along the whole battle front, sacred to the memory of the valor of the men from your Dominion. But it is as the men who played their part in the struggle against the barbarians that the Canadians will live in history."

"It is my desire, comrades in arms, who have returned to their normal occupations and their homes, to bring my most cordial greetings and welcome, and, I trust, all the happiness they deserve in the year that lies ahead. France will never forget the debt she owes to you, and your comrades."

"One day I hope to be able to visit your country, comrades, and to spend my time with those of you whose acquaintance I made in the day when we were fighting the common enemy."

English history is a masterpiece of literature. It is a story of the struggles of the English people for freedom and justice. It is a story of the great battles of the English people, and of the great leaders who have led them to victory.

An American Knight Ramsay MacDonald

Labor Leader Is Dubbed "Sir Ramsay" At Jasper Park Lodge
If there was to be a list of the "Lion Party of Great Britain," there would be no man more fittingly named than Ramsay MacDonald. He was in Canada last summer for the first time, and he was welcomed with the same cordiality and enthusiasm, without sword or quillon, without knighthood in silver hose and breeches, but he was knighted. And by a citizen of the United States.

It happened when the former Prime Minister was a guest at Jasper Park Lodge. The same evening he brought him such distinction, a visitor from Chincinatti, was enjoying the lakes at the same time, and had a movie kodak with him and was having the fun of his life watching unsuspecting beaver, deer, golfer and other denizens of the park. When Mr. MacDonald appeared with his four daughters, the heart of the man from Chincinatti was melted.

At least he was. Here was legend, a Scotch! When his friends gave him the name of "Sir Ramsay," he was a little surprised, but he was a little surprised, but he was a little surprised.

PRUNE WHIP DELICACY
1 package of orange junket.
1 pint milk.
1 egg white.
1 cup sugar.
1 cup prune pulp.
2 teaspoons lemon juice.

Prepare orange junket according to directions on package and set away to chill. Beat egg white until stiff, add sugar gradually until thoroughly blended. Add prune pulp (prepared by rubbing cooked prunes through a sieve) and sugar. Before serving heap the glasses of junket with prune pulp, garnish with sections of orange, if desired.

Return From Barren Lands
Count Tolstoy and Party Complete Successful Trip To Far North. Count Tolstoy, famous Russian writer, accompanied by Horace Ashton, of the National Geographic Society, returned recently from a four and a half month trip in the barren lands. With the party was a cock, Dick Jones, and seven Indians. Leaving Sturgeon Landing, Saskatchewan, 20 in four cases they traveled 60 days northward. The object of the party was to record the migration of the caribou. The return trip was made by ten dog sleds and without difficulty.

Visions Scientific Trip Around Pole

Captain Bartlett Has Spent Thirty Years in Arctic
A four year scientific coasting expedition around the North Pole was suggested by Captain Robert A. Bartlett, home only a short time from eleven months in the Arctic. Captain Bartlett, who has spent 30 years in the frozen north, returned to New York with his famous schooner Morley from the Behring Sea, with the H.M.C. expedition. The ship which Captain Bartlett visited for the four year trip would be almost as good as new, and it would be almost as good as new, and it would be almost as good as new.

The office building of the Bend Brick Co., Medicine Hat, was badly damaged by fire last Sunday morning. The damage is estimated at \$8,000.

This week the Medalta Pottery Co. Medicine Hat was sold to R. C. Grier and C. C. Arnold of Calgary. The property, stock and equipment was valued at \$500,000. This plant started in a comparatively small way only a few years ago. Today seventy-five per cent. of the pottery produced in Canada is manufactured at the Medalta plant.

Kenneth Jones, son of Mr. and Mrs. Roy Jones, of Medicine Hat, was run over and killed by a freight train at the station in the Hat last Monday.

There was no council meeting last Monday as, according to statute, the first meeting for the newly elected council is called for the third Monday in February.

Farmers throughout Alberta are again being advised by the Provincial Department of Agriculture to make the necessary provisions for the supply of seed oats which will be required for their 1920 crop.

Th. U. F. A. heads on evidently getting anxious about their diminishing numbers. They have decided to discontinue membership fees from pool members' money. Evidently they believe that where the farmer's dollar is, there will his vote be also.

John Hart, "Happy Jack," the popular boat man at Elkaville Lake, is spending a few days in town this week visiting Robt. Thomson, his old friend of the pioneer days in the west. Naturally these two are having an enjoyable visit rehearsing their many episodes of thirty or forty years ago in the wild and woolly west.

The annual meeting of the Albert Division of the Canadian Red Cross Society will be held in the Macdonald hotel, Edmonton, on Saturday, February 23rd, commencing at 10 a.m. The early part of the proceedings which will include the full report of the year's work, will be broadcasted by C. B. C. commencing at 10:15 a.m.

Preparations are being made to open up the chimney department at the glass plant. It is expected it will be in operation in a few days.

The question is what to do with the red slippers which were misplaced at the last dance. Rumor has it that they were delivered on a day.

Edward Reid, of Medicine Hat, died last Sunday after a long illness. The funeral took place Thursday.

Subscription time is around again. Take a look at today's paper pages and see how you stand.

MRS. COOPER'S CONCERT WAS GREAT SUCCESS

Mrs. Cooper's concert given in the Casino theatre last Tuesday evening was quite a success and was much enjoyed by all. It was a disappointment that Mr. Norman Davis was called away on business and so was unable to bring his very popular play "The Bridal Suite." But the gap was very nicely filled in at the last moment by Miss White and W. Kemp, with the aid of Miss V. Cox as accompanist. Other performers were Mrs. Bushan, Miss Hatch (accompanist), Miss Kitty White and Messrs. R. Thompson and C. Hatch, most of whom kindly gave us some piano. Mrs. Hargrave accompanied Mrs. Cooper and also gave two piano solos. The selections of all the artists were of a very high order and exceptionally well rendered. Mrs. A. R. Bellamy entertained the party to lunch after the concert. Mrs. Cooper wishes us to extend her thanks to all who helped make the concert a success.
